

ACTIVE RECOVERY CENTER

A multimedia platform for your clinic to
aid in attracting new patients and
increasing patients retention

Active Recovery Center increases patient engagement in the treatment and increases chances of full recovery.

Interconnected and tailored to client and provider needs

ARC provides integrated mobile apps and online portals for your clinic and patients

24/7 communication and resources access

The advertisement for the ARC Mobile Health Journal features a light blue background. In the top left, the "enfoglobe™ Innovative Technologies" logo is shown. In the top right, the "ARC ACTIVE RECOVERY CENTER" logo is displayed. The central image shows a male doctor and a female doctor in white coats looking at a laptop. Below them, a man is sitting and using a laptop. A large blue curved arrow points from the doctors' laptop down to the man's laptop. Between the two laptops are several orange hexagonal icons representing various health and recovery concepts: a pill, a brain, a person, a gear, and a network. To the right of the central image, the text "Mobile Health Journal" is written in a bold, blue font. Below this text is a bulleted list: "• Daily Entries", "• Analytics", and "• Customizable". At the bottom right, a hand is holding a smartphone displaying the ARC mobile app interface, which includes icons for "Recovery Tracker", "GPS Check in", "Recovery Statistic", "Daily Diary", "Gratitude Journal", and "Resources". At the bottom of the advertisement, a blue banner contains the text "Multimedia • Quizzes • Track Progress".

Increase client motivation through education

- Educate patients on different **treatment options**
- Educate patients on the **science behind substance use disorders**
- Educate patients on recovery roadmap and **recovery activities**
- Educate **family members and reduce stigma**.
- Reinforce education with unlimited access to materials

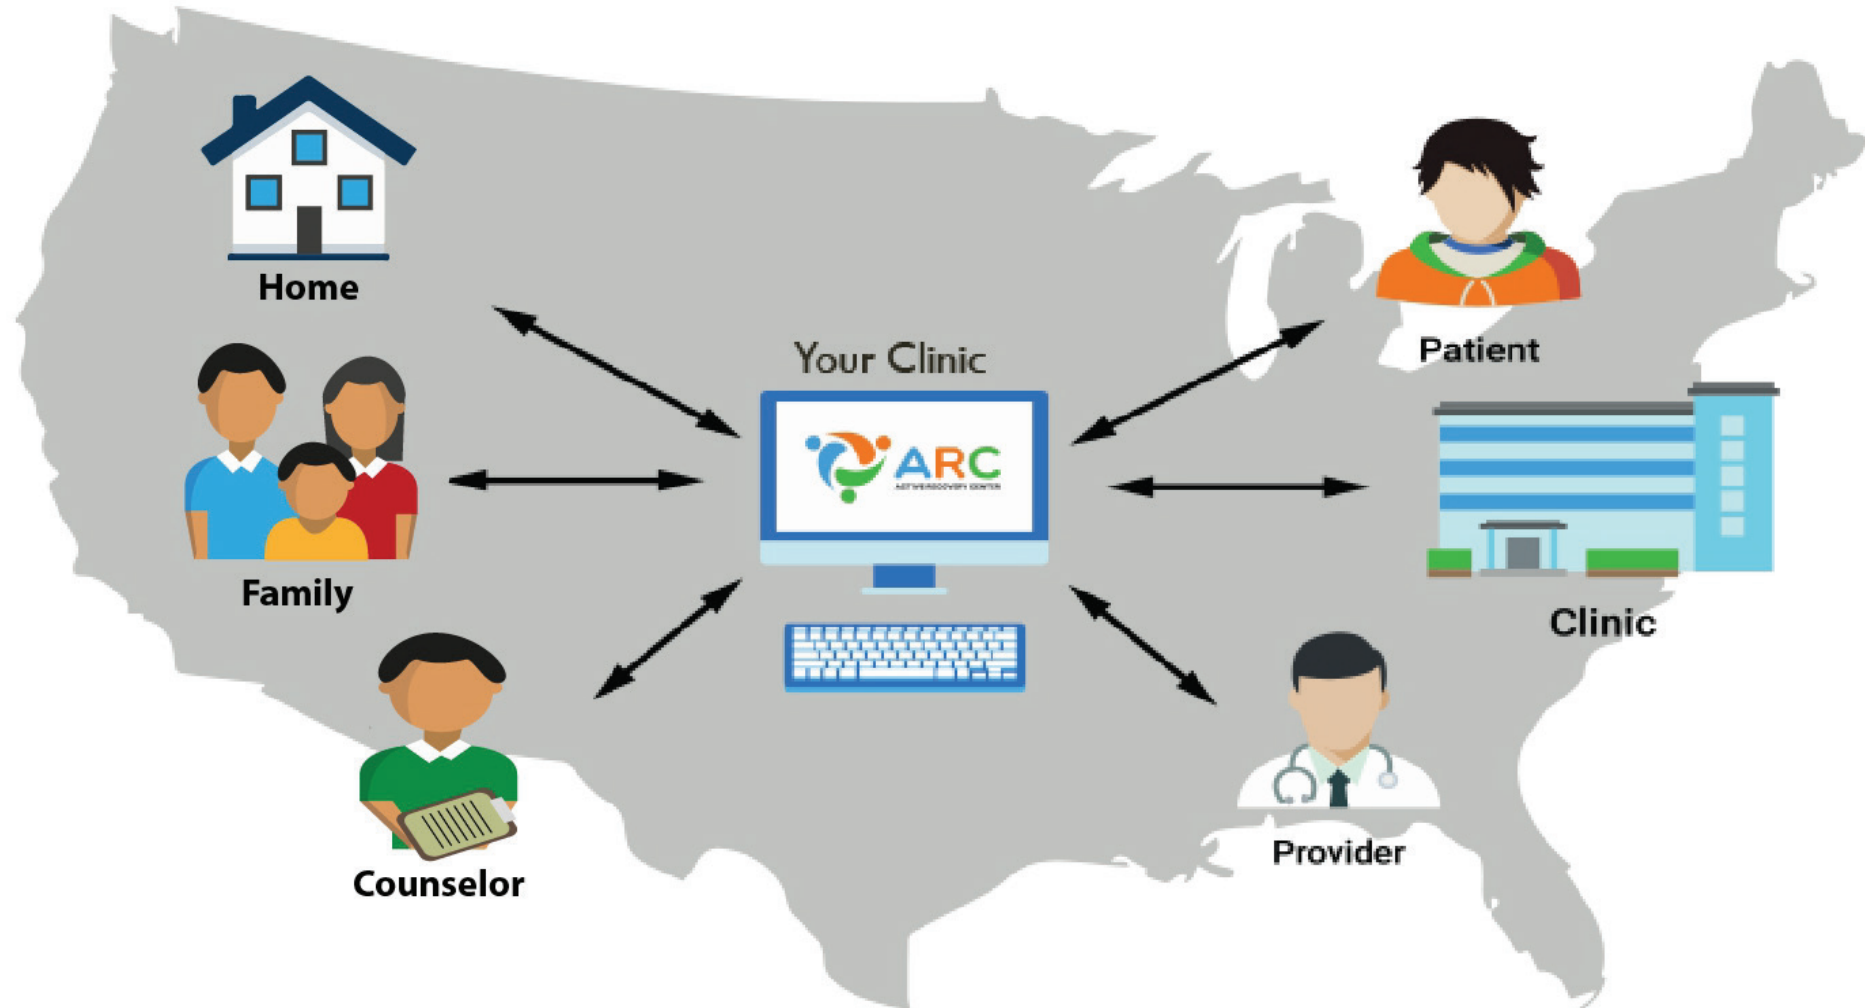

Increase Treatment Compliance

- **Stay longer with the program** thanks to feedback loop (progress tracking, communication, alerts, personal journals)
- **Positive perception of treatment progress** and clinical results

ARC connects clients via portals and mobile app

- Create clinic specific services for clinic clients
- Hosted in secure HIPAA-compliant commercial facility, Google GCP
- ARC supports HHS.gov requirements for HIPAA secure solution
- No need for data management, logins, server administration by clinics
- Globally accessible 24/7 with data access control by user privileges
- ARC integrates with other systems in the clinic

CUSTOM TALIORED WEBSITE FOR EACH CLINIC

The screenshot displays the ARC website interface. At the top, there is a navigation bar with the ARC logo, a menu (HOME, TRAINING, FEATURES, CONTACT), and login options (Login (ID), Password, Login, Sign up, Cannot login?). The main content area features a large blue banner with the text: "Active Recovery Center. ARC is a multimedia platform for your clinic to aid in attracting new clients and increasing patient retention. ARC provides integrated mobile apps and online portals for your clinic and clients." To the right of the banner is a laptop displaying a dashboard. Below the banner, the section "ARC FEATURES" is shown, including a "Click here" link and a grid of icons representing various features like patient management, appointments, and reports. A "Dashboard" icon is also present. At the bottom, a larger tablet displays a detailed dashboard with sections for Patient Overview, Patient Health Status, Medications, and Upcoming Appointments.

CUSTOMIZED TO CLINIC AND TO CLIENTS

Each Clinic and Client have different needs and philosophies of effective recovery.

ARC Multimedia is tailored to each clinic needs in order to maximize treatment efficiency for each patient.

ARC provides different content for each clinic, each patient group, or different treatment approaches by each doctor.

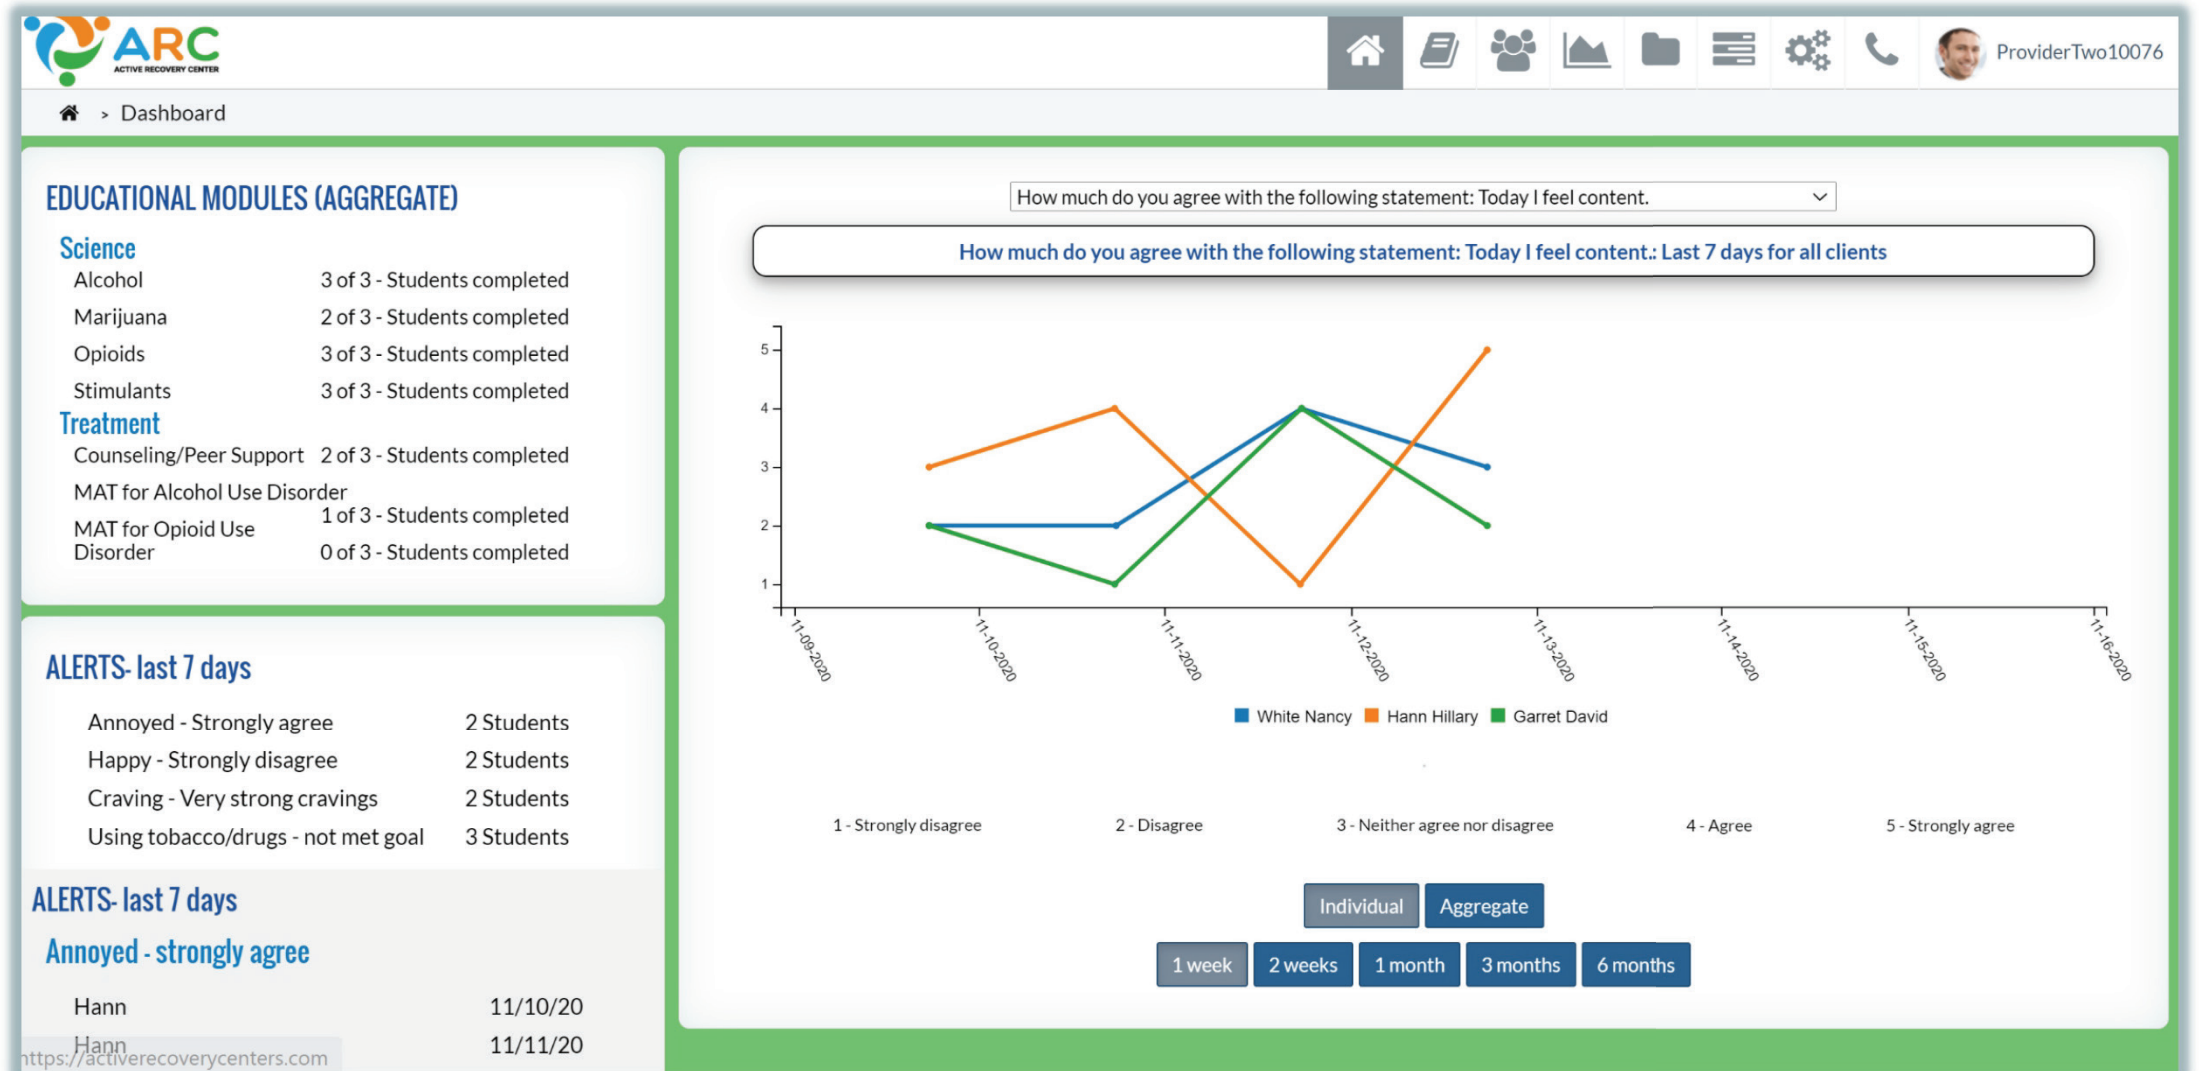

FEATURES FOR CLINIC

**Educate and connect with
clients and monitor
treatment progress**

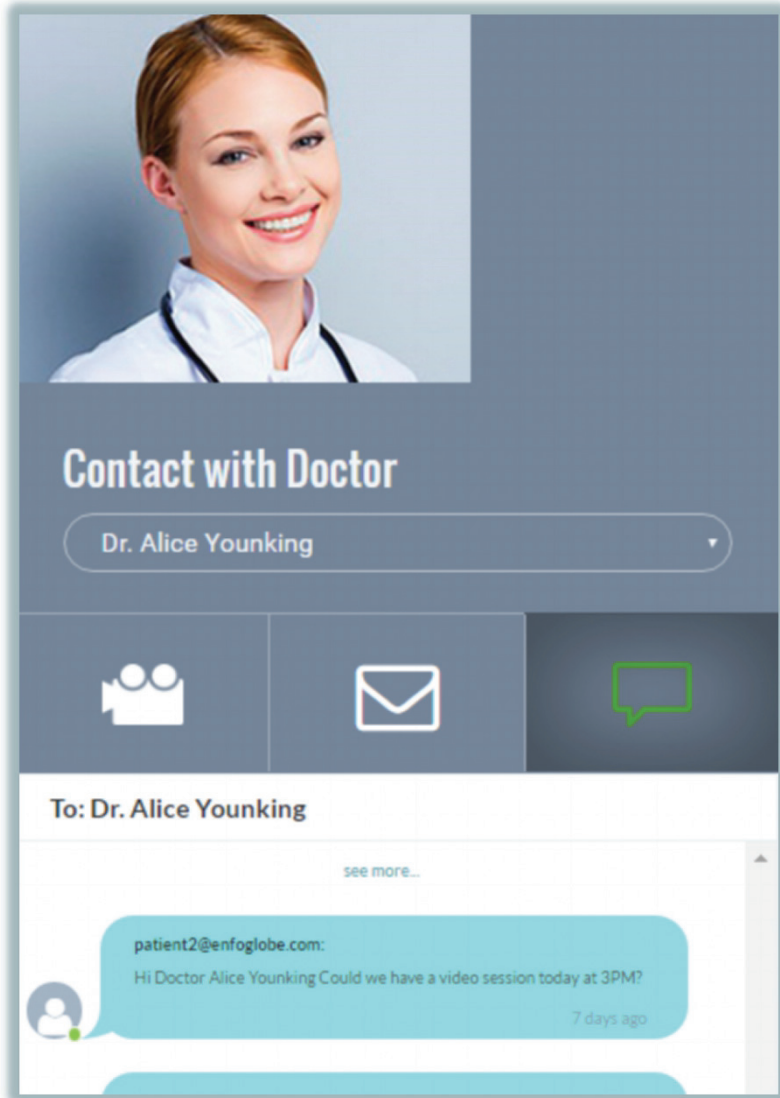

PROVIDER FEATURES

- Interactively connect with patients, **increase patient retention**,
- **improve relationships with patients**
- Interactively monitor alerts, mobile questions, assignments, graphs
- Track educational modules, choose trend tracking, **progress graphs**
- Specify **custom content** for animations, graphics, navigation, mobile

Developed in collaboration with mental health and addiction specialists

REMOTE CONNECTIVITY WITH CLIENTS

- Increase patient access to services, reduce travel
- Real time patient care
- Reduced number of in-clinic visits
- Reduce patient anxiety and increase engagement
- Attract more patients and increase outreach
- Secure individual, group messaging, email, video
- Secure transmission of records, files, images
- Seamless scheduling and calendaring
- Secure and HIPAA compliant
- Provider reimbursed for services rendered via telehealth in some states

CLINIC BENEFITS

**Increase client retention
and business growth.
Improve treatment
outcomes**

ATTRACTS CLIENTS WITH BETTER RESULTS

- **Reduce costs:** Reduce patient health care costs with real-time access and communications, data analytics, and central database
- **Attract patients:** Clinic stands out thanks to focused, highly accessible treatments supported with online and mobile tools for patients and providers
- **Increased efficiency:** Increases efficiency of clinic operations and monitoring of treatment; continuous self surveys increase recovery
- **In-patient/Out-Patient:** Custom features for In- and Out-patient treatment
- **Better reputation:** Thanks to better relationships with Clients

INCREASE REVENUE

- **Attract new clients** thanks to high connectivity to support team, better care, understanding of treatment options
- **Clients adhere to treatment** thanks to real-time feedback, communication, and indicators to track treatment compliance
- **Low cost accessibility** options for consultations, follow-up, urgent alerts, checklists, reference documents, calendars, trends, rerun of videos
- **Lower support costs** thanks to telemedicine features. Better educated staff

GROW BUSINESS WITH BETTER RETENTION

- **Serve more clients** with modern mobile toolbox, rich database of resources
- **Better diagnostics** with analytics that combine: patient profile, recovery activities, trends, diagnostic history
- **Lower IT costs** with HIPAA secure solution, in the Cloud, zero admin cost

CLIENT FEATURES

**Clients stay longer in treatment thanks
to education, connectivity, and real
time support**

Educational Modules and Progress

Educational Modules - Educational Multimedia

The screenshot displays the S.U.N. Client Dashboard interface. The top navigation bar includes the SUN logo, the text "S.U.N. CLIENT DASHBOARD", and user information "Hi, HillaryHann24". A left sidebar lists various educational modules: Alcohol, Marijuana, Opioids (selected), Stimulants, Counseling/Peer Support, MAT for Alcohol Use Disorder, and MAT for Opioid Use Disorder. The Opioids module is expanded, showing a list of steps: Pre-Survey, Opioid Animation (highlighted in green), Post-Survey, and post Post-Survey. The main content area displays the "Opioid Animation" module, which features a large illustration of a human head profile filled with colorful icons representing different substances and a stick figure pointing at it. Below the illustration are "Previous" and "Next" navigation buttons. The bottom of the dashboard shows the copyright notice "Copyright © 2021 Enfoglobe LLC".

Daily Health Questions

The screenshot displays the SUN website interface on a tablet. The left sidebar contains navigation links for Educational Modules (Science, Alcohol, Marijuana, Opioids, Stimulants), Treatment (MAT for Alcohol Use Disorder, MAT for Opioid Use Disorder, Counselling/Peer Support), Reference Documents, Resources+, and Daily Goals+. The main content area shows three sequential question cards. Each card asks for agreement with a statement and provides five radio button options: Strongly disagree, Disagree, Neither agree nor disagree, Agree, and Strongly agree. The first card has 'Strongly agree' selected, the second has 'Agree' selected, and the third has 'Disagree' selected. Navigation buttons (Previous, Next) are present on each card. The background shows a blurred view of the website's educational modules and a graph.

How much do you agree with the following statement: Today I feel happy.

☐ Strongly disagree ☐ Disagree ☐ Neither agree nor disagree ☒ Agree ☐ Strongly agree

Next

How much do you agree with the following statement: Today I feel that my life has a purpose.

☐ Strongly disagree ☐ Disagree ☐ Neither agree nor disagree ☒ Agree ☐ Strongly agree

Previous Next

How much do you agree with the following statement: Today I feel annoyed or irritable.

TESTIMONIALS

INDIANA UNIVERSITY
MAURER SCHOOL OF LAW
Bloomington

April 18, 2018

Letter of Reference for Enfoglobe, Inc.

Enfoglobe, Inc. a Florida software development company, has successfully partnered with my team of Indiana University researchers, the Indiana University Counseling & Psychological Services center (CAPS) and Indiana University OASIS recovery support center to develop and implement the "Substance Use Navigation" (SUN) program, an application help students with substance use disorder. SUN consists of multimedia educational videos for students on the science behind substance use disorder and evidence-based treatments, a mobile application for students to track their recovery activities and health status, and a portal for students to share their mobile data with their providers.

SUN has multiple goals: 1) to help students understand substance use disorder (SUD) as a chronic health condition, 2) to educate students about evidence-based treatment options; 3) to decrease stigmatization of SUD and its treatments; 4) to raise students' awareness about their own health trends; and 5) to improve the therapeutic alliance between students and counselors. Study participants include students and health care providers at Indiana University-Bloomington.

Enfoglobe developed the animated videos and mobile application in an iterative process with participatory feedback. Additionally, Enfoglobe is generously licensing its proprietary online portals to Indiana University for use by students and providers, with the portals adapted to project needs.

Enfoglobe has consistently provided high quality software development and animation services, including by conforming to Indiana University's rigorous security requirements and HIPAA requirements. In addition, I cannot imagine working with a more innovative and capable team of professionals, who have had the patience to work with bureaucratic university processes, answer research team members' developmental questions, and worked tremendously hard to meet difficult deadlines and produce a well-designed and successful application.

Our university plans to continue using SUN, and looks forward to new opportunities for collaboration.

Sincerely,

211 S. Indiana Avenue Bloomington, IN 47405-7001 (812) 856-1082

Dear Margaret:

As the year draws to a close, John Couch and I would like to extend our sincere appreciation for work of the Enfoglobe team throughout 2020. It has been a distinct pleasure working with you and your staff and we are delighted to have you be a part of our team.

Not only has the quality of your work been outstanding, you and your staff have been diligent, conscientious, and consistently committed to meeting and exceeding expectations. The versatility in knowledge and skills of your team is quite impressive as is your creativity and readiness to contribute ideas and solutions. In addition, your flexibility and patience with our deadlines and changes in scheduling have been a tremendous help.

We look forward to working with you on multiple projects in the year ahead and thank you again for your outstanding service. We are also happy to serve as a reference for your work.

Sincerely,

Marcia Elder
