# Interactive Media Platform™

**enfoglobe™**
INNOVATIVE TECHNOLOGIES

# LEARNING MANAGEMENT SYSTEM

IMP™ is a multimedia learning management system with instructor portals, student portals, and a mobile application. Portals and the mobile application are fully customizable and HIPAA compliant. The platform is ideal for training in any industry and educating students of any kind, including employees, partners, clients, or patients.

## TRAINEE EDUCATION PORTAL

Multimedia educational portal helps improve students' performance and material retention. IMP's powerful analytics help identify gaps in learning. It can also be used for research purposes or for obtaining electronic informed consent. **We can custom develop educational content** for your specific needs, including animations and graphics. Originally designed for the healthcare and legal settings, IMP™ can be used in any industry or environment.

## TRAINER PORTAL

IMP™ allows instructors to **quickly create courses, design exams & surveys, manage student learning goals, track and analyze individual and aggregate student progress, communicate with students and other instructors, manage calendars, upload and share documentation, and provide certifications upon course completion.**

## FEATURES:

- Easily create courses and educational modules
- Upload documents, videos, animations, 3D graphics, and presentations
- Communicate with individuals and groups via chat, email and video conference
- Measure individual or aggregate course progress, and gain insight on learning trends
- Personalize the learning experience using intuitive content and user management tools

- Have Enfoglobe create custom graphics, animations, and virtual reality content for your courses
- Schedule course activities on an interactive timeline with tasks, reminders, and goals
- Easily create quizzes, surveys, and rules for passing
- Relax, knowing your data and communications are secure on HIPAA-compliant servers

# ADVANTAGES:

**PERSONALIZE THE LEARNING EXPERIENCE**
Easily create individualized courses and educational modules

**ENGAGE LEARNERS**
Make learning an active experience with interactive multimedia

**DECREASE ANXIETY**
Learners feel less anxious with clearer, manageable information

**IMPROVE INFORMATION RETENTION**
Improve learner retention by stimulating the visual and audio senses with 2D and 3D multimedia features

**QUIZZES & SURVEYS**
Easily create quizzes and surveys for educational or research purposes

**CERTIFICATIONS**
Automatically generate and share course completion certifications

**COLLABORATE & COMMUNICATE**
Communicate with groups and individuals via chat sessions, messaging, and video conferencing

**REDUCE COSTS**
Reduce administrative, travel, paper, and IT costs

**ACCESS ANYWHERE**
Participate remotely anywhere, anytime by Internet-enabled computer, tablet, or smart phone

**HIPAA COMPLIANT SECURITY**
All data and communications are processed and stored on HIPAA compliant servers

**COMPLETELY CUSTOMIZABLE PLATFORM**
Enfoglobe will customize the system for any industry or environment, adding new features for your needs

**ADD CUSTOM-MADE ANIMATION & GRAPHICS**
Enfoglobe will create custom animation and graphics for your educational modules
